

Syed Faraz Ali Shah

Front end Developer

A results-oriented front-end developer with a proven ability to create engaging and user-friendly web applications. I possess a strong foundation in HTML, CSS, JavaScript, and ReactJS, along with experience in popular frameworks like Tailwind CSS and Bootstrap. I am passionate about building high-quality, responsive interfaces that deliver exceptional user experiences.

Employment History

Front end developer internship at Your online conversation behria town karachi, Karachi

SEPTEMBER 2024 — NOVEMBER 2024

I gained valuable front-end development experience while working on projects in Bahria Town. This experience allowed me to hone my skills in HTML, CSS, JavaScript, and ReactJS, as well as gain proficiency in frameworks like Tailwind CSS and Bootstrap. I am confident in my ability to contribute to your team and create high-quality, user-centric web applications.
